👤 About me

I am a web developer having expertise in front-end development and a good exposure to backend development. I design and develop front-end applications using latest technologies and frameworks to deliver the product with quality code.
I have an excellent UI fundamentals & technical flexibility and can adapt to most of the front-end technologies easily.

🎯 Career Objective

I wish to be a part of organization which can utilize my skills and knowledge to work and deliver high quality products for users

Core Technical Skills

Skill	Level
JavaScript	■ ■ ■ ■ ▢
HTML5	■ ■ ■ ■ ▢
CSS	■ ■ ■ ■ ▢
React	■ ■ ■ ▢ ▢
Angular	■ ■ ■ ▢ ▢
Core JAVA	■ ■ ■ ■ ▢

🧠 Areas of Expertise

Data Structure | Algorithms | Redux
SQL | Bootstrap | PWA | RxJS
TypeScript | Web Components

Methodology / Approach

Agile methodology | MVC | TDD
Component based architecture
Design Patterns | RESTful architecture

🔧 Tools

Git | Jira | Webpack | npm
VS Code | Eclipse

🎓 Education

Bachelor of Engineering *2008 - 2012*

Electronics & Communication
NMAMIT, NITTE
8.67 CGPA
